# WIMBLEDON AND RAYNES PARK RESIDENT INFORMATION

Prudential RideLondon returns to Wimbledon and Raynes Park on Sunday 31 July.

The route for the Prudential RideLondon events is the same as last year and means movement into and out of the area will involve crossing closed roads. The 'affected area' is shown on the map on the back page of this leaflet.

Please also be aware of the wider road closures across the event route in London and Surrey. Please visit [www.prudentialridelondon.co.uk/roadclosures](http://www.prudentialridelondon.co.uk/roadclosures) for further event information.

## EVENTS TAKING PLACE ON SUNDAY 31 JULY 2016

### › Prudential RideLondon-Surrey 100

A mass-participation ride for 25,000+ cyclists – passing locally from 09:30 until 17:00.

### › Prudential RideLondon-Surrey Classic

A race for 150 professional cyclists – passing through from 17:30 until 18:30.

## ROAD CLOSURE TIMES

The event route is closed to normal traffic from 07:30 to approximately 19:30. This includes Coombe Lane West, Coombe Lane, Lambton Road to Worple Road, Worple Road, Wimbledon Hill Road, High Street, Parkside, Wimbledon Parkside and Tibbet's Corner. The A3 slip roads at both Coombe Lane and Tibbet's Corner will be closed.

All roads in the area will remain closed for a period after the event has passed. Roads will be reopened as soon as possible when it is safe and practical. »

## VEHICLE CROSSING POINTS

Vehicle Crossing Points will manage vehicles into and out of the affected area between 07:30 and 19:30.

Vehicles will be facilitated across the event route by stewards at the following locations and at the times indicated:

### All day:

- › Approach Road to Lambton Road (northbound), Pepys Road to Approach Road (southbound)
- › Ridgway to Belvedere Grove, access in both directions

### Only available until 08:45 and from 18:30:

- › Cope Hill to the A3 (no access from the A3)
- › West Barnes Lane to Durham Road, access in both directions
- › Lower Downs Road to The Downs, access in both directions

Vehicular crossing of the route at these locations will operate slowly when there are safe gaps and it is recommended that crossing points are used only when essential. Longer delays can be expected during the peak period of cyclists between 11:00-15:00.

### The best time to cross will be during off-peak periods expected at:

- › Between 07:30 and 09:30
- › Before 11:00
- › Between 15:00 and 17:00
- › After 18:30 prior to road opening

Vehicles can cross the route only when it is safe to do so as instructed

by stewards. The safety of both the public and participants is paramount.

## PEDESTRIAN CROSSING POINTS

These are located at the existing signalled crossings along the event route and will be under marshal supervision to help you across the road throughout the day. Pedestrian crossing points will be temporarily closed prior to the professional race passing through.
